**106.03 LOADING.** Vehicles or containers used for the collection and transportation of any solid waste shall be loaded and moved in such a manner that the contents will not fall, leak, or spill therefrom, and shall be covered to prevent blowing or loss of material. Where spillage does occur, the material shall be picked up immediately by the collector or transporter and returned to the vehicle or container and the area properly cleaned.

**106.04 FREQUENCY OF COLLECTION.** All solid waste shall be collected from residential premises at least once each week and from commercial, industrial, and institutional premises as frequently as may be necessary, but not less than once each week.

**106.05 BULKY RUBBISH.** Bulky rubbish that is too large or heavy to be collected in the normal manner of other solid waste may be collected by the collector upon request in accordance with procedures established by the Council.

**106.06 RIGHT OF ENTRY.** Solid waste collectors are hereby authorized to enter upon private property for the purpose of collecting solid waste, as required by this chapter; however, solid waste collectors shall not enter dwelling units or other residential buildings.

**106.07 CONTRACT REQUIREMENTS.** No person shall engage in the business of collecting, transporting, processing, or disposing of solid waste for the City without first entering into a contract with the City. This section does not prohibit an owner from transporting solid waste accumulating upon premises owned, occupied, or used by such owner, provided such refuse is disposed of properly in an approved sanitary disposal project. Furthermore, a contract is not required for the removal, hauling, or disposal of earth and rock material from grading or excavation activities, provided that all such materials are conveyed in tight vehicles, trucks, or receptacles so constructed and maintained that none of the material being transported is spilled upon any public right-of-way.
